

WHY WE ARE THE PROFESSIONALS' PROCUREMENT CHOICE

BCR Associates is a multi-award-winning procurement and Net Zero consultancy that specialise in helping businesses control costs, mitigate consumption, reduce emissions and achieve Net Zero goals. We offer specialist support across your entire business and with clients throughout the UK, we provide expertise across all aspects of energy management, procurement, energy efficiency solutions and finance.

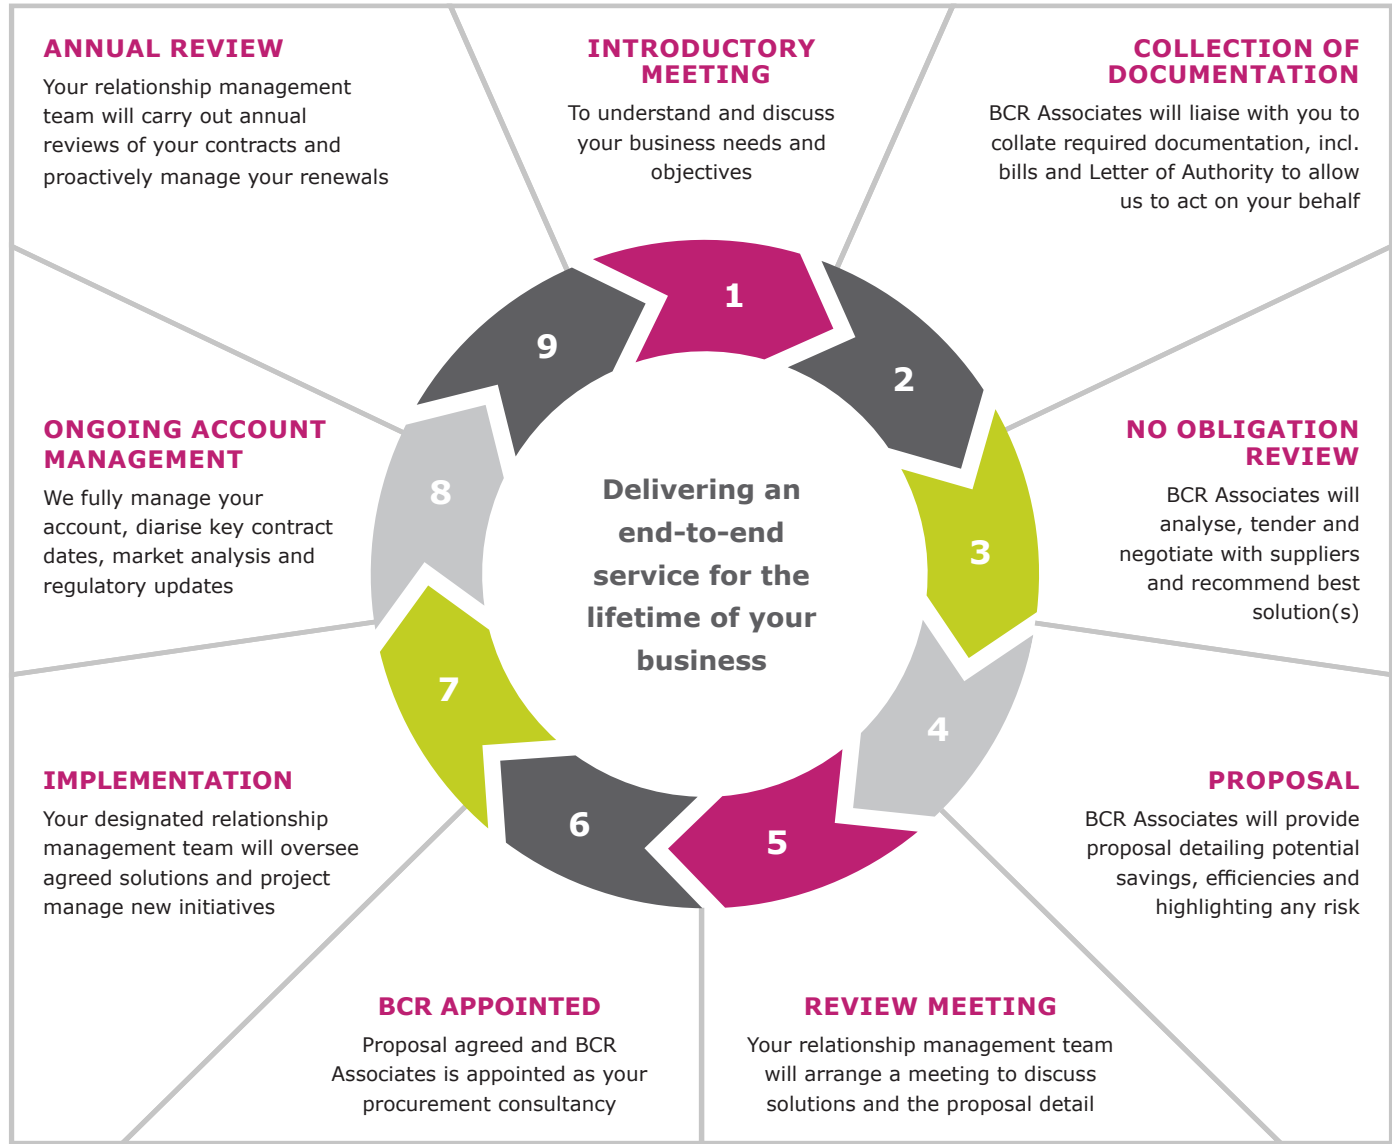

Our fully managed service covers energy management planning, carbon foot printing and renewable solutions as well as controlling spend across energy, communications, business supplies, insurance and providing access to funding specialists. Our commitment to ethical, responsible and sustainable business means can rely on us to do the right thing by you and with you, every time.

ABOUT US

As procurement and Net Zero consultants, BCR Associates’ services start with you. Your objectives, your ambitions for growth, your Net Zero ambitions, your processes and your property – by investing our time in understanding every aspect of your business, we can rapidly form the fullest possible picture of how we can help, and where you'll gain maximum benefit from our support.

Short-term price savings are always welcome – we'll find you those quick cost wins from the earliest days of our partnership. But real value comes from solutions that stand the test of time. You get the best from us when we think long-term together, with a relationship built on shared goals and straight-talking respect.

- Business Supplies
- IT Support

WHAT OUR CLIENTS SAY

“

After some bad experiences with previous energy brokers we were introduced to BCR at the BH&HPA conference, and we appointed them to look after our electricity contracts.

After initially being sceptical that there were any reputable companies operating in the industry, my faith is now fully restored. They immediately set about aligning all of our contract termination dates to streamline the renewals process, and have achieved some very good prices for us. On top of that they are an absolute pleasure to deal with, I really cannot speak highly enough of them.”

**Jonathan Lant, Group Accountant
Turners Holiday Parks**

“

We employed BCR Associates to successfully co-ordinated a complex infrastructure project for our new Forthglade factory. The BCR Associates team were always very approachable and keen to support wherever required.”

**Gerrard Lovell, Joint Managing Director
Forthglade Foods**

“

In 2011 we appointed BCR Associates to assist with the procurement and management of our utilities. The number of sites and various utility contracts and tariffs linked to these had led to a number of billing and operational issues.

These matters were passed to BCR Associates and we were delighted in their extremely prompt and efficient response - a response that has resolved long-standing invoicing problems, reductions in costs and an excellent renegotiation of a rolled-over contract. Savings to date have included a £21,000 (40%) saving on electricity and a £3,000 (21%) saving on gas.

Since then, we have developed a long-term and positive relationship with BCR Associates and I have no hesitation in recommending them.”

**Wayne Gale, Estates Manager
Hospiscare**
